

Managing Director

Charles Knudsen

CEO, Global KA Holdings Inc.

At Global KA, we believe that English is a powerful tool for helping children connect with the world and expand their possibilities. With Ohana joining the Global KA Group, we are able to provide families with more connected educational pathways that support children as they grow and discover their own interests and strengths.

Each school in our group brings its own unique strengths, and together we hope to create environments where children develop the confidence and curiosity to become lifelong learners.

The Founder

Shelly Sacks

Founder, Ohana International Preschool

Founder, Ohana International Preschool

At Ohana International Preschool, we have always valued each child's individuality and placed play at the heart of our approach. Early childhood is a precious time when children come to understand themselves, build relationships with others, and develop curiosity about the world.

When parents and alumni families describe what makes Ohana special, the word they always come back to is "heart." We found that same heart in the Global KA Group. By joining the group, we are encouraged that the learning nurtured at Ohana can connect even more naturally to children's future growth and educational pathways. We will continue to cherish and cultivate a warm, enriching environment where children bloom and friendships flourish.
